

The FN HK (Hradec Králové Teaching Hospital) sampling centre is located in the rear part of the FN HK premises and it operates as a drive – in, with access along the Třebešská road. Signs for pedestrians are provided from the main porter’s lodge as well as from the gate for pedestrians.

Operating hours are every day, from 7:30 a. m. till 6:30 p. m. (7:30 – 18:30).

It is necessary to make a booking in the [booking system](#) in advance.

It is essential to enter a correct phone number and e-mail for further communication when making the booking.

After the booking, you will receive a confirmation e-mail; the given appointment time is indicative only, it prevents accumulation of people who come for the sampling. .

In case you would not be able to come, be so kind and cancel the booking using the link in the confirmation e-mail.

For the sampling proper, come wearing a nose and mouth protective mask and prepare your identity card.

It is necessary not to eat, drink, smoke or use mouthwash, nasal drops, chewing gum for at least 30 minutes before collection.

The specimen is collected using a long swab that is inserted into the nose (nasopharyngeal swab).

After your arrival, wait kindly for the sampling centre personnel’s instructions.

Private payers shall pay the amount of CZK 1756, - for sampling prior to the sampling proper; it can be paid by a payment card only.

The test results will be communicated to you by an automatic SMS message, no later than within 48 hours after the sampling.

A certificate with test results in the Czech and English language is sent by an e-mail in an electronic form to private payers only; the code for the document opening will be sent by a SMS message, no later than within 48 hours (electronic signature is located under the red seal icon).

The electronically signed certificate will be sent to the applicant’s email. Should you need it in a printed form, visit kindly your closest post office that offers the CzechPoint services. Proceed according to the instructions contained in the link below the text.

In case the test result would be positive, inform kindly your general practitioner, observe the quarantine rules and wait until the regional Public Health Office contacts you.
